

Why not have a go at printing your own Christmas wrapping paper. We've used our fingers to make snowmen but you could make reindeers, Christmas puddings, whatever makes you feel festive!

## What will I need?

A large sheet of coloured plain paper

White Paint

Felt Tipped Pens

1, Pour some white paint into a pot. An old egg carton or yoghurt pot is fine

2. Dip your thumb in the paint and press on to the paper to make snowmen heads and bodies

3. Use felt tipped pens to add hats, scarves, twig arms and carrot noses to your snowmen

We would love to see your creations. #Museumlittleexplorers
